Teacup Gorilla inhabits the venues of Denver, CO with dark **indie-rock soundscapes** and **evocative poetry** — often compared to early Modest Mouse and Low. Daniel, Sondra, and Eric have been playing together over fifteen years, across a wide range of projects. In the summer of 2015 they released Teacup Gorilla's debut EP, **The Holes They Leave**, along with the multimedia novel **Riding SideSaddle***.

Teacup Gorilla has enjoyed playing some of Denver's top venues — **Hi Dive**, **Syntax Physic Opera**, **Larimer Lounge**, and the **Underground Music Showcase** — collaborating with everyone from Jen Korte and Bad Luck City, to Buntport Theater, Boulderling Poets, and the Clyfford Still Museum.
